Re: Freedom of Information Act Request

Dear FOIA Officer:

Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552, and the implementing regulations of your agency, American Oversight makes the following request for records.

Public reporting has long raised concerns that the Trump administration has employed inappropriate non-disclosure agreements (NDAs) to restrict the ability of government officials from sharing unclassified information about their government service. On March 18, 2018, the *Washington Post* reported that, in the early months of the Trump administration, senior White House staff were pressed into signing NDAs of expansive scope.¹ A draft of one of these proposed NDAs reportedly extended the prohibition on disclosing nonpublic information indefinitely beyond the end of the Trump presidency and imposed an astounding \$10 million penalty for violation of the agreement.² The draft agreement also apparently allowed Donald Trump to enforce the agreement in his personal

capacity.³ Such sweeping NDA restrictions appear to be unprecedented,⁴ and could constitute an unconstitutional restriction on officials' First Amendment rights.⁵

More recently, the Department of Justice (DOJ) Civil Division has demanded that the publishers of a book by a (current or former) senior administration official provide the identity of and NDAs signed by that official or assurances that they had not signed any NDAs in connection with their government service.⁶ The Civil Division's letter suggests that administration officials have "routinely" signed NDAs beyond the standard government NDAs required to access classified national security information.⁷

American Oversight seeks records with the potential to shed light on whether the Trump administration has employed NDAs in an inappropriate manner.

Requested Records

American Oversight requests that the Office of Management and Budget (OMB) produce the following records within twenty business days:

A copy of any non-disclosure agreement(s) or other contract(s) limiting the ability to share information signed or otherwise executed by OMB Director Mick Mulvaney, except for any standardized agreements that exclusively concern access to national security information classified pursuant to presidential executive order.

Please provide all responsive records from January 20, 2017, through the date of the search.

Fee Waiver Request

In accordance with 5 U.S.C. § 552(a)(4)(A)(iii) and your agency's regulations, American Oversight requests a waiver of fees associated with processing this request for records.

⁷ *Supra* note 6 (noting that the requested NDAs "are routinely required with respect to information obtained within the course of one's official responsibilities *or* as a condition for access to classified information. (emphasis added)).

The subject of this request concerns the operations of the federal government, and the disclosures will likely contribute to a better understanding of relevant government procedures by the general public in a significant way. Moreover, the request is primarily and fundamentally for non-commercial purposes.

American Oversight requests a waiver of fees because disclosure of the requested information is “in the public interest because it is likely to contribute significantly to public understanding of operations or activities of the government.”⁸ The public has a significant interest in whether the federal government has required government officials to sign overly broad NDAs that restrict their ability to share important information with the public gained in the course of government service. Records with the potential to shed light on this matter would contribute significantly to public understanding of operations of the federal government, including the breadth of information covered by NDAs signed by federal government officials. American Oversight is committed to transparency and makes the responses agencies provide to FOIA requests publicly available, and the public’s understanding of the government’s activities would be enhanced through American Oversight’s analysis and publication of these records.

This request is primarily and fundamentally for non-commercial purposes.⁹ As a 501(c)(3) nonprofit, American Oversight does not have a commercial purpose and the release of the information requested is not in American Oversight’s financial interest. American Oversight’s mission is to promote transparency in government, to educate the public about government activities, and to ensure the accountability of government officials. American Oversight uses the information gathered, and its analysis of it, to educate the public through reports, press releases, or other media. American Oversight also makes materials it gathers available on its public website and promotes their availability on social media platforms, such as Facebook and Twitter.¹⁰

American Oversight has also demonstrated its commitment to the public disclosure of documents and creation of editorial content through numerous substantive analyses posted to its website.¹¹ Examples reflecting this commitment to the public disclosure of documents and the creation of editorial content include the posting of records related to an ethics waiver received by a senior Department of Justice attorney and an analysis of what those records demonstrated regarding the Department’s process for issuing such

waivers;¹² posting records received as part of American Oversight’s “Audit the Wall” project to gather and analyze information related to the administration’s proposed construction of a barrier along the U.S.-Mexico border, and analyses of what those records reveal;¹³ posting records regarding potential self-dealing at the Department of Housing & Urban Development and related analysis;¹⁴ posting records and analysis relating to the federal government’s efforts to sell nuclear technology to Saudi Arabia;¹⁵ and posting records and analysis regarding the Department of Justice’s decision in response to demands from Congress to direct a U.S. Attorney to undertake a wide-ranging review and make recommendations regarding criminal investigations relating to the President’s political opponents and allegations of misconduct by the Department of Justice itself and the Federal Bureau of Investigation.¹⁶

Accordingly, American Oversight qualifies for a fee waiver.

Guidance Regarding the Search & Processing of Requested Records

In connection with its request for records, American Oversight provides the following guidance regarding the scope of the records sought and the search and processing of records:

- Our request for records includes any attachments to those records or other materials enclosed with those records when they were previously transmitted. To the extent that an email is responsive to our request, our request includes all prior messages sent or received in that email chain, as well as any attachments to the email.

- Please search all relevant records or systems containing records regarding agency business. Do not exclude records regarding agency business contained in files, email accounts, or devices in the personal custody of your officials, such as personal email accounts or text messages. Records of official business conducted using unofficial systems or stored outside of official files are subject to the Federal Records Act and FOIA.¹⁷ It is not adequate to rely on policies and procedures that require officials to move such information to official systems within a certain period of time; American Oversight has a right to records contained in those files even if material has not yet been moved to official systems or if officials have, by intent or through negligence, failed to meet their obligations.¹⁸
- Please use all tools available to your agency to conduct a complete and efficient search for potentially responsive records. Agencies are subject to government-wide requirements to manage agency information electronically,¹⁹ and many agencies have adopted the National Archives and Records Administration (NARA) Capstone program, or similar policies. These systems provide options for searching emails and other electronic records in a manner that is reasonably likely to be more complete than just searching individual custodian files. For example, a custodian may have deleted a responsive email from his or her email program, but your agency’s archiving tools may capture that email under Capstone. At the same time, custodian searches are still necessary; agencies may not have direct access to files stored in .PST files, outside of network drives, in paper format, or in personal email accounts.
- In the event some portions of the requested records are properly exempt from disclosure, please disclose any reasonably segregable non-exempt portions of the requested records. If a request is denied in whole, please state specifically why it is not reasonable to segregate portions of the record for release.
- Please take appropriate steps to ensure that records responsive to this request are not deleted by the agency before the completion of processing for this request. If records potentially responsive to this request are likely to be located on systems where they are subject to potential deletion, including on a scheduled basis, please

take steps to prevent that deletion, including, as appropriate, by instituting a litigation hold on those records.
