**Re: Expedited Freedom of Information Act Request**

Dear FOIA Officer,

Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552, and the implementing regulations of your agency, 45 C.F.R Part 5, American Oversight makes the following request for records.

The outbreak of the novel coronavirus, SARS-CoV-2, and the disease it causes, COVID-19, has been declared a public health emergency at both the national and international levels.<sup>1</sup> Since late 2019, the virus has spread to dozens of countries, sickened millions of people, and resulted in tens of thousands of deaths.<sup>2</sup> It has been reported that the first clear warning regarding the virus was communicated by George F. Gao, director of the Chinese Center for Disease Control and Prevention, via phone call to Robert Redfield, Director of the U.S. Centers for Disease Control and Prevention (CDC), on January 3, 2020. Director Redfield subsequently relayed this information to Alex Azar, Secretary of the U.S. Department of Health and Human Services (HHS), who then shared it with the White House via his chief of staff, Brian Harrison.<sup>3</sup>

American Oversight seeks records with the potential to shed light on this initial warning.

## **Requested Records**

American Oversight requests that HHS produce the following records within twenty business days:

1. All records reflecting the content of CDC Director Robert Redfield's communication with HHS Secretary Alex Azar regarding Director Redfield's phone call on or about January 3, 2020 with George F. Gao, director of the Chinese Center for Disease Control and Prevention, including any materials shared between Director Redfield and Secretary Azar, and any notes or memoranda memorializing this communication.
2. All records reflecting communications (including emails, email attachments, text messages, messages on messaging platforms (such as Slack, GChat or Google Hangouts, Lync, Skype, or WhatsApp), telephone call logs, calendar invitations, calendar entries, meeting agendas, any handwritten or electronic notes taken during any oral communications, summaries of any oral communications, or other materials) between (a) HHS Chief of Staff Brian Harrison and (b) the White House (including communications with email addresses ending @who.eop.gov, @ovp.eop.gov, or @nsc.eop.gov) regarding the novel coronavirus.

Please provide all responsive records from January 1, 2020, through January 9, 2020.

## **Application for Expedited Processing**

Pursuant to 5 U.S.C. § 552(a)(6)(E)(1) and 45 C.F.R. § 5.27(b), American Oversight requests that your agency expedite the processing of this request.

I certify to be true and correct to the best of my knowledge and belief that the information requested is urgently needed in order to inform the public concerning actual or alleged government activity, and American Oversight is primarily engaged in disseminating the information it received from public records requests to the public.

Recent reporting demonstrates that there is clearly an urgent need to inform the public regarding the matters that are the subject of American Oversight's FOIA request. First, American Oversight has requested records with the potential to shed light on the steps the administration's response to the novel coronavirus outbreak, which has resulted in a major public health emergency. Because the virus has spread rapidly and has already killed thousands of people in the United States,<sup>4</sup> there is plainly an urgent need to inform the public about what the administration knew when regarding the severity of the threat

posed by this new virus. The exceptionally widespread news reporting on coronavirus demonstrates that the public urgently needs information about the federal government's efforts and policies concerning the subject matter of this request.<sup>5</sup> Second, factual developments have demonstrated a series of government failures to appropriately handle decisions regarding the virus, including failures in the rollout of coronavirus tests and overly restrictive testing protocols,<sup>6</sup> as well as an effort by government officials to minimize press coverage and reduce public information<sup>7</sup> about the testing of coronavirus cases. There is also widespread public concern that public health officials are being prevented from speaking about the coronavirus more broadly<sup>8</sup> —information that is critical for educating the public on steps to contain the future spread of the virus, mitigate the outbreaks that have already occurred, and evaluate the effectiveness of the government's response.

Moreover, I certify to be true and correct to the best of my knowledge and belief that there is an urgent need to inform the public about decisions regarding coronavirus. American Oversight's request seeks information that can shed light on what administration officials knew when, including the content of early warnings from Chinese officials. The public urgently needs the information to understand the extent of the growing health crisis and make decisions that promote public health and mitigate the spread of the disease. In the midst of an election year, it is also essential that the public be made aware of whether and to what extent current officials disregarded warnings regarding the virus, which is now having devastating effects across the country.<sup>9</sup>

I further certify that American Oversight is primarily engaged in disseminating information to the public. American Oversight's mission is to promote transparency in government, to educate the public about government activities, and to ensure the accountability of government officials. to satisfy the criteria necessary to qualify for expedition,<sup>10</sup> American Oversight “gathers information of potential interest to a segment of the public, uses its editorial skills to turn the raw material into a distinct work, and distributes that work to an audience.”<sup>11</sup>

American Oversight uses the information gathered, and its analysis of it, to educate the public through reports, press releases, and other media. American Oversight also makes materials it gathers available on its public website and promotes their availability on social media platforms, such as Facebook and Twitter.<sup>12</sup> As discussed previously, American Oversight has demonstrated its commitment to the public disclosure of documents and creation of editorial content.<sup>13</sup>

Accordingly, American Oversight’s request satisfies the criteria for expedition.

### **Fee Waiver Request**

In accordance with 5 U.S.C. § 552(a)(4)(A)(iii) and your agency’s regulations, American Oversight requests a waiver of fees associated with processing this request for records. The subject of this request concerns the operations of the federal government, and the disclosures will likely contribute to a better understanding of relevant government

procedures by the general public in a significant way. Moreover, the request is primarily and fundamentally for non-commercial purposes.

American Oversight requests a waiver of fees because disclosure of the requested information is “in the public interest because it is likely to contribute significantly to public understanding of operations or activities of the government.”<sup>14</sup> The public has a significant interest in the government’s response to a global pandemic that has killed, at the time of writing, more than 89,000 people.<sup>15</sup> Records with the potential to shed light on this issue would contribute significantly to public understanding of operations of the federal government, including what U.S officials knew when about the coming crisis. American Oversight is committed to transparency and makes the responses agencies provide to FOIA requests publicly available, and the public’s understanding of the government’s activities would be enhanced through American Oversight’s analysis and publication of these records.

This request is primarily and fundamentally for non-commercial purposes.<sup>16</sup> As a 501(c)(3) nonprofit, American Oversight does not have a commercial purpose and the release of the information requested is not in American Oversight’s financial interest. American Oversight’s mission is to promote transparency in government, to educate the public about government activities, and to ensure the accountability of government officials. American Oversight uses the information gathered, and its analysis of it, to educate the public through reports, press releases, or other media. American Oversight also makes materials it gathers available on its public website and promotes their availability on social media platforms, such as Facebook and Twitter.<sup>17</sup>

American Oversight has also demonstrated its commitment to the public disclosure of documents and creation of editorial content through numerous substantive analyses posted to its website.<sup>18</sup> Examples reflecting this commitment to the public disclosure of documents and the creation of editorial content include the posting of records related to an ethics waiver received by a senior Department of Justice attorney and an analysis of what those records demonstrated regarding the Department’s process for issuing such waivers;<sup>19</sup> posting records received as part of American Oversight’s “Audit the Wall” project to gather and analyze information related to the administration’s proposed construction of a barrier along the U.S.-Mexico border, and analyses of what those records

Accordingly, American Oversight qualifies for a fee waiver.

### **Guidance Regarding the Search & Processing of Requested Records**

In connection with its request for records, American Oversight provides the following guidance regarding the scope of the records sought and the search and processing of records:

- Please search all locations and systems likely to have responsive records, regardless of format, medium, or physical characteristics. For instance, if the request seeks “communications,” please search all locations likely to contain communications.
- In conducting your search, please understand the terms “record,” “document,” and “information” in their broadest sense, to include any written, typed, recorded, graphic, printed, or audio material of any kind.
- Our request for records includes any attachments to those records or other materials enclosed with those records when they were previously transmitted. To the extent that an email is responsive to our request, our request includes all prior messages sent or received in that email chain, as well as any attachments to the email.

- Please search all relevant records or systems containing records regarding agency business. Do not exclude records regarding agency business contained in files, email accounts, or devices in the personal custody of your officials, such as personal email accounts or text messages. Records of official business conducted using unofficial systems or stored outside of official files are subject to the Federal Records Act and FOIA.<sup>24</sup> It is not adequate to rely on policies and procedures that require officials to move such information to official systems within a certain period of time; American Oversight has a right to records contained in those files even if material has not yet been moved to official systems or if officials have, by intent or through negligence, failed to meet their obligations.<sup>25</sup>
- Please use all tools available to your agency to conduct a complete and efficient search for potentially responsive records. Agencies are subject to government-wide requirements to manage agency information electronically,<sup>26</sup> and many agencies have adopted the National Archives and Records Administration (NARA) Capstone program, or similar policies. These systems provide options for searching emails and other electronic records in a manner that is reasonably likely to be more complete than just searching individual custodian files. For example, a custodian may have deleted a responsive email from his or her email program, but your agency’s archiving tools may capture that email under Capstone. At the same time, custodian searches are still necessary; agencies may not have direct access to files stored in .PST files, outside of network drives, in paper format, or in personal email accounts.
- In the event some portions of the requested records are properly exempt from disclosure, please disclose any reasonably segregable non-exempt portions of the requested records. If a request is denied in whole, please state specifically why it is not reasonable to segregate portions of the record for release.
- Please take appropriate steps to ensure that records responsive to this request are not deleted by the agency before the completion of processing for this request. If records potentially responsive to this request are likely to be located on systems where they are subject to potential deletion, including on a scheduled basis, please
