Re: Expedited Freedom of Information Act Request

Dear FOIA Officer,

Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552, and the implementing regulations of your agency, 45 C.F.R Part 5, American Oversight makes the following request for records.

The outbreak of the novel coronavirus, SARS-CoV-2, and the disease it causes, COVID-19, has been declared a public health emergency at both the national and international levels.¹ Since late 2019, the virus has spread to dozens of countries, sickened hundreds of thousands of people, and resulted in tens of thousands of deaths.² This is a rapidly evolving situation that is demanding coordinated attention and action across the federal government, including the Indian Health Service.

American Oversight seeks records with the potential to shed light on how the administration is handling this public health emergency.

Requested Records

American Oversight requests that Indian Health Service produce the following records within twenty business days:

1. Any assessments prepared by your agency's staff that evaluate the risk to IHS facilities, tribal and urban Indian organization health programs, and the individuals served by these facilities and programs associated with the novel coronavirus (COVID-19) outbreak.

¹ *Coronavirus Disease 2019 (COVID-19) Situation Summary*, CTRS. FOR DISEASE CONTROL & PREVENTION, <https://www.cdc.gov/coronavirus/2019-ncov/summary.html>.

² *Coronavirus Map: Tracking the Global Outbreak*, N.Y. TIMES (Apr. 1, 2020, 8:14 AM), <https://www.nytimes.com/interactive/2020/world/coronavirus-maps.html>.

2. Any assessments provided to your agency by any other federal agencies, including but not limited to members of the White House Coronavirus Task Force, Department of Health and Human Services (HHS), Centers for Disease Control and Prevention (CDC), the National Institute of Health (NIH), the National Institute of Allergy and Infectious Diseases (NIAID), the Food and Drug Administration (FDA), or the Federal Emergency Management Agency (FEMA), that evaluate the risk to Indian Health Service facilities, tribal and urban Indian organization health programs, and the individuals served by these facilities and programs associated with the novel coronavirus (COVID-19) outbreak.
3. Any directive, order, decision, protocols, or guidance provided by your agency to IHS facilities or tribal and urban Indian organization health programs regarding the novel coronavirus, including but not limited to measures to prevent or mitigate the virus's spread.
4. Any directive, order, decision, protocols, or guidance provided by any other federal agencies, including but not limited to members of the White House Coronavirus Task Force, HHS, CDC, NIH, NIAID, FDA, or FEMA, to your agency regarding the novel coronavirus, including but not limited to measures to prevent or mitigate the virus's spread.

American Oversight believes your agency is best positioned to determine where responsive records may reside. However, we request that at a minimum, you search the files of your agency's head office and anyone serving as an agency point of contact for the coronavirus task force.

Please provide all responsive records from January 29, 2020, through the date of the search.

Application for Expedited Processing

Pursuant to 5 U.S.C. § 552(a)(6)(E)(1) and 45 C.F.R. § 5.27(b), American Oversight requests that your agency expedite the processing of this request.

I certify to be true and correct to the best of my knowledge and belief that the information requested is urgently needed in order to inform the public concerning actual or alleged government activity, and American Oversight is primarily engaged in disseminating the information it received from public records requests to the public.

Recent reporting demonstrates that there is clearly an urgent need to inform the public regarding the matters that are the subject of American Oversight's FOIA request. First, American Oversight has requested records with the potential to shed light on the steps the administration has undertaken to manage a major public health emergency. Because the

virus has spread rapidly and has already killed thousands of people in the United States,³ there is plainly an urgent need to inform the public about administration actions regarding decisions about the virus in the United States, as cases have now appeared nationwide and the reach of the virus grows wider on a daily basis. The exceptionally widespread news reporting on coronavirus demonstrates that the public urgently needs information about the federal government's efforts and policies concerning the subject matter of this request.⁴ Second, factual developments in the last few weeks have demonstrated a series of government failures to appropriately handle decisions regarding the virus, including failures in the rollout of coronavirus tests and overly restrictive testing protocols,⁵ as well as an effort by government officials to minimize press coverage and reduce public information⁶ about the testing of coronavirus cases. There is also widespread public concern that public health officials are being prevented from speaking about the coronavirus more broadly⁷—information that is critical for educating the public on steps to contain the future spread of the virus and mitigate the outbreaks that have already occurred. Finally, the 2.5 million members of federally recognized tribes served by HIS are at a particularly high risk in this pandemic due to, among other things, a chronic lack of funding and resources.⁸

Moreover, I certify to be true and correct to the best of my knowledge and belief that there is an urgent need to inform the public about decisions regarding coronavirus. American Oversight's request seeks information that can shed light on what decisions have been made and what actions have been taken—including whether and to what extent the IHS

has enacted policies to prevent or slow the spread of the virus within the facilities and programs under its purview, whether such facilities and programs have sought to procure testing kits and other necessary equipment, and what planning is being done to further protect and care for members of federally recognized tribes. The public urgently needs the information to understand the extent of the growing health crisis and make decisions that promote public health and mitigate the spread of the disease.

I further certify that American Oversight is primarily engaged in disseminating information to the public. American Oversight's mission is to promote transparency in government, to educate the public about government activities, and to ensure the accountability of government officials. Similar to other organizations that have been found to satisfy the criteria necessary to qualify for expedition,⁹ American Oversight "gathers information of potential interest to a segment of the public, uses its editorial skills to turn the raw material into a distinct work, and distributes that work to an audience."¹⁰ American Oversight uses the information gathered, and its analysis of it, to educate the public through reports, press releases, and other media. American Oversight also makes materials it gathers available on its public website and promotes their availability on social media platforms, such as Facebook and Twitter.¹¹ As discussed previously, American Oversight has demonstrated its commitment to the public disclosure of documents and creation of editorial content.¹²

Accordingly, American Oversight's request satisfies the criteria for expedition.

Fee Waiver Request

In accordance with 5 U.S.C. § 552(a)(4)(A)(iii) and your agency's regulations, American Oversight requests a waiver of fees associated with processing this request for records. The subject of this request concerns the operations of the federal government, and the disclosures will likely contribute to a better understanding of relevant government procedures by the general public in a significant way. Moreover, the request is primarily and fundamentally for non-commercial purposes.

American Oversight requests a waiver of fees because disclosure of the requested information is "in the public interest because it is likely to contribute significantly to public understanding of operations or activities of the government."¹³ The public has a significant interest in the government's response to a global pandemic that has killed, at the time of writing, roughly 77,103 people.¹⁴ Records with the potential to shed light on this issue would contribute significantly to public understanding of operations of the federal government, including what steps the U.S government has taken to protect and care for the millions of members of federally recognized tribes served by the Indian Health Service. American Oversight is committed to transparency and makes the responses agencies provide to FOIA requests publicly available, and the public's understanding of the government's activities would be enhanced through American Oversight's analysis and publication of these records.

This request is primarily and fundamentally for non-commercial purposes.¹⁵ As a 501(c)(3) nonprofit, American Oversight does not have a commercial purpose and the release of the information requested is not in American Oversight's financial interest. American Oversight's mission is to promote transparency in government, to educate the public about government activities, and to ensure the accountability of government officials. American Oversight uses the information gathered, and its analysis of it, to educate the public through reports, press releases, or other media. American Oversight also makes materials it gathers available on its public website and promotes their availability on social media platforms, such as Facebook and Twitter.¹⁶

American Oversight has also demonstrated its commitment to the public disclosure of documents and creation of editorial content through numerous substantive analyses

posted to its website.¹⁷ Examples reflecting this commitment to the public disclosure of documents and the creation of editorial content include the posting of records related to an ethics waiver received by a senior Department of Justice attorney and an analysis of what those records demonstrated regarding the Department’s process for issuing such waivers;¹⁸ posting records received as part of American Oversight’s “Audit the Wall” project to gather and analyze information related to the administration’s proposed construction of a barrier along the U.S.-Mexico border, and analyses of what those records reveal;¹⁹ posting records regarding potential self-dealing at the Department of Housing & Urban Development and related analysis;²⁰ posting records and analysis relating to the federal government’s efforts to sell nuclear technology to Saudi Arabia;²¹ and posting records and analysis regarding the Department of Justice’s decision in response to demands from Congress to direct a U.S. Attorney to undertake a wide-ranging review and make recommendations regarding criminal investigations relating to the President’s political opponents and allegations of misconduct by the Department of Justice itself and the Federal Bureau of Investigation.²²

Accordingly, American Oversight qualifies for a fee waiver.

- Please search all locations and systems likely to have responsive records, regardless of format, medium, or physical characteristics. For instance, if the request seeks “communications,” please search all locations likely to contain communications.
- In conducting your search, please understand the terms “record,” “document,” and “information” in their broadest sense, to include any written, typed, recorded, graphic, printed, or audio material of any kind.
- Our request for records includes any attachments to those records or other materials enclosed with those records when they were previously transmitted. To the extent that an email is responsive to our request, our request includes all prior messages sent or received in that email chain, as well as any attachments to the email.
- Please search all relevant records or systems containing records regarding agency business. Do not exclude records regarding agency business contained in files, email accounts, or devices in the personal custody of your officials, such as personal email accounts or text messages. Records of official business conducted using unofficial systems or stored outside of official files are subject to the Federal Records Act and FOIA.²³ It is not adequate to rely on policies and procedures that require officials to move such information to official systems within a certain period of time; American Oversight has a right to records contained in those files even if material has not yet been moved to official systems or if officials have, by intent or through negligence, failed to meet their obligations.²⁴
- Please use all tools available to your agency to conduct a complete and efficient search for potentially responsive records. Agencies are subject to government-wide requirements to manage agency information electronically,²⁵ and many agencies have adopted the National Archives and Records Administration (NARA) Capstone program, or similar policies. These systems provide options for searching emails and other electronic records in a manner that is reasonably likely to be more complete than just searching individual custodian files. For example, a custodian may have deleted a responsive email from his or her email program, but your agency’s archiving tools may capture that email under Capstone. At the same

- In the event some portions of the requested records are properly exempt from disclosure, please disclose any reasonably segregable non-exempt portions of the requested records. If a request is denied in whole, please state specifically why it is not reasonable to segregate portions of the record for release.
- Please take appropriate steps to ensure that records responsive to this request are not deleted by the agency before the completion of processing for this request. If records potentially responsive to this request are likely to be located on systems where they are subject to potential deletion, including on a scheduled basis, please take steps to prevent that deletion, including, as appropriate, by instituting a litigation hold on those records.

Conclusion

If you have any questions regarding how to construe this request for records or believe that further discussions regarding search and processing would facilitate a more efficient production of records of interest to American Oversight, please do not hesitate to contact American Oversight to discuss this request. American Oversight welcomes an opportunity to discuss its request with you before you undertake your search or incur search or duplication costs. By working together at the outset, American Oversight and your agency can decrease the likelihood of costly and time-consuming litigation in the future.

Where possible, please provide responsive material in an electronic format by email. Alternatively, please provide responsive material in native format or in PDF format on a USB drive. Please send any responsive material being sent by mail to American Oversight, 1030 15th Street NW, Suite B255, Washington, DC 20005. If it will accelerate release of responsive records to American Oversight, please also provide responsive material on a rolling basis.

We share a common mission to promote transparency in government. American Oversight looks forward to working with your agency on this request. If you do not understand any part of this request, please contact Christine Monahan at foia@americanoversight.org or

(202) 869-5244. Also, if American Oversight's request for a fee waiver is not granted in full, please contact us immediately upon making such a determination.
