<sup>1</sup> Requesters believe your office is in the best position to know how the cost of attorneys' time in your office is calculated and recorded. Responsive records would include, for example, records that show the number of billable hours attorneys spent on the case and their billable rates or annual salaries.

To the extent any records that aggregate all or some of the costs exist, Requesters specifically request those records. In

addition, Requesters believe records such as time and/or billing records, budgets, appropriations or budget requests, engagement agreements, vendor contracts, invoices, receipts, or memoranda or reports discussing the cost of the litigation would be responsive to this request. ### **Guidance Regarding the Search & Processing of Requested Records**

Requesters seek all responsive records regardless of format, medium, or physical characteristics. In conducting your search, please understand the term “record” in its broadest sense, to include any written, typed, recorded, graphic, printed, or audio material of any kind. We seek records of any kind, including electronic records, audiotapes, videotapes, and photographs, as well as letters, emails, facsimiles, telephone messages, voice mail messages and transcripts, notes, or minutes of any meetings, telephone conversations or discussions. Our request includes any attachments to these records. **No category of material should be omitted from search, collection, and production.**

Please search all locations and systems likely to have responsive records regarding official business. **You may not exclude searches of files or emails in the personal custody of your officials, such as personal email accounts.** Records prepared, maintained, or received by any individual or entity conducting government business or who has a contract with a state agency constitute records for purposes of Georgia’s public records laws.<sup>2</sup>

In the event some portions of the requested records are properly exempt from disclosure, please disclose any reasonably segregable non-exempt portions of the requested records.<sup>3</sup> If it is your position that a document contains non-exempt segments, but that those non-exempt segments are so dispersed throughout the document as to make segregation impossible, please state what portion of the document is non-exempt, and how the material is dispersed throughout the document. If a request is denied in whole, please state specifically that it is not reasonable to segregate portions of the record for release.

<sup>3</sup> O.C.G.A. § 50-18-72(b).

Please take appropriate steps to ensure that records responsive to this request are not deleted by the agency before the completion of processing for this request. If records potentially responsive to this request are likely to be located on systems where they are subject to potential deletion, including on a scheduled basis, please take steps to prevent that deletion, including, as appropriate, by instituting a litigation hold on those records.

### **Conclusion**

If you have any questions regarding how to construe this request for records or believe that further discussions regarding search and processing would facilitate a more efficient production of records of interest to Requesters, please do not hesitate to contact American Oversight to discuss this request. Requesters welcome an opportunity to discuss its request with you before you undertake your search or incur search or duplication costs. By working together at the outset, Requesters and your office can decrease the likelihood of costly and time-consuming litigation in the future.
