Re: Expedited Freedom of Information Act Request

Dear FOIA Officer:

Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552, and the implementing regulations of your agency, American Oversight makes the following request for records.

On August 14, 2020, the U.S. Department of Health and Human Services (HHS) announced that the U.S. Centers for Disease Control and Prevention had exercised an option in an existing contract with McKesson Corporation to serve as “a central distributor of future COVID-19 vaccines and related supplies needed to administer the pandemic vaccinations.”¹ According to the press release, “McKesson will work under CDC’s guidance to ship COVID-19 vaccines to administration sites.”² This collaboration between CDC and McKesson is in support of Operation Warp Speed, a partnership between HHS and the U.S. Department of Defense (DOD).³

American Oversight seeks records that may shed light on the distribution of any forthcoming COVID-19 vaccine.

Requested Records

American Oversight seeks expedited review of this request for the reasons identified below and requests that your agency produce the following records as soon as practicable, and at least within twenty business days:

¹ Press Release, U.S. Dep’t of Health & Human Servs., Trump Administration Collaborates with McKesson for COVID-19 Vaccine Distribution (Aug. 14, 2020), <https://www.hhs.gov/about/news/2020/08/14/trump-administration-collaborates-mckesson-covid-19-vaccine-distribution.html>.

² *Id.*

³ *Id.*

All orders, commands, directives, instructions, or guidance given to McKesson Specialty Distribution LLC or any of its affiliates, or any employees or representatives thereof, regarding the potential or actual distribution of any COVID-19 vaccine or vaccine-related supplies.

Please provide all responsive records from July 17, 2020, through the date of the search.

Fee Waiver Request

In accordance with 5 U.S.C. § 552(a)(4)(A)(iii) and your agency's regulations, American Oversight requests a waiver of fees associated with processing this request for records. The subject of this request concerns the operations of the federal government, and the disclosures will likely contribute to a better understanding of relevant government procedures by the general public in a significant way. Moreover, the request is primarily and fundamentally for non-commercial purposes.

American Oversight requests a waiver of fees because disclosure of the requested information is "in the public interest because it is likely to contribute significantly to public understanding of operations or activities of the government."⁴ The public has a significant interest in the federal government's plan for distributing any COVID-19 vaccine.⁵ Records with the potential to shed light on this matter would contribute significantly to public understanding of operations of the federal government, including what role McKesson will play in distribution and how distribution decisions will be made. American Oversight is committed to transparency and makes the responses agencies provide to FOIA requests publicly available, and the public's understanding of the

This request is primarily and fundamentally for non-commercial purposes.⁶ As a 501(c)(3) nonprofit, American Oversight does not have a commercial purpose and the release of the information requested is not in American Oversight's financial interest. American Oversight's mission is to promote transparency in government, to educate the public about government activities, and to ensure the accountability of government officials. American Oversight uses the information gathered, and its analysis of it, to educate the public through reports, press releases, or other media. American Oversight also makes materials it gathers available on its public website and promotes their availability on social media platforms, such as Facebook and Twitter.⁷

American Oversight has also demonstrated its commitment to the public disclosure of documents and creation of editorial content through regular substantive analyses posted to its website.⁸ Examples reflecting this commitment to the public disclosure of documents and the creation of editorial content include the posting of records related to the Trump Administration's contacts with Ukraine and analyses of those contacts;⁹ posting records and editorial content about the federal government's response to the Coronavirus pandemic;¹⁰ posting records received as part of American Oversight's "Audit the Wall" project to gather and analyze information related to the administration's proposed construction of a barrier along the U.S.-Mexico border, and analyses of what those records reveal;¹¹ the posting of records related to an ethics waiver received by a

Application for Expedited Processing

Pursuant to 5 U.S.C. § 552(a)(6)(E)(1) and your agency's regulations, American Oversight requests that your agency expedite the processing of this request.

I certify to be true and correct to the best of my knowledge and belief that the information requested is urgently needed in order to inform the public concerning actual or alleged government activity, and American Oversight is primarily engaged in disseminating the information it received from public records requests to the public.

First, I certify to be true and correct to the best of my knowledge and belief that the information requested is urgently needed in order to inform the public regarding how the administration, working through McKesson, will distribute any COVID-19 vaccine. Recent reporting demonstrates widespread interest in how the federal government will make any COVID-19 vaccine widely available, particularly in light of the expedited timetable it appears to have set for itself.¹⁴ Pressing questions, about which more information is urgently needed, include: (1) who will get access to the vaccine when; (2) how vaccines requiring multiple doses will be effectively distributed and administered; (3) where vaccines will be administered, and; (4) whether the safety and integrity of vaccines will, in fact, be maintained during an accelerated roll-out, particularly when multiple vaccine candidates need to be stored at subzero temperatures.¹⁵

American Oversight has requested records with the potential to shed light on these matters, by making public the specifics of the CDC’s contract with McKesson for the distribution of any COVID-19 vaccine. Full transparency regarding the approval and distribution of any COVID-19 vaccine—including through the release of government records on these topics—is particularly necessary right now in light of crumbling public trust around any fast-tracked COVID-19 vaccine.¹⁶

I further certify that American Oversight is primarily engaged in disseminating information to the public. American Oversight’s mission is to promote transparency in government, to educate the public about government activities, and to ensure the accountability of government officials. Similar to other organizations that have been found to satisfy the criteria necessary to qualify for expedition,¹⁷ American Oversight “gathers information of potential interest to a segment of the public, uses its editorial skills to turn the raw material into a distinct work, and distributes that work to an audience.”¹⁸ American Oversight uses the information gathered, and its analysis of it, to educate the public through reports, press releases, and other media. American Oversight also makes materials it gathers available on its public website and promotes their availability on social

Accordingly, American Oversight's request satisfies the criteria for expedition.

Guidance Regarding the Search & Processing of Requested Records

In connection with its request for records, American Oversight provides the following guidance regarding the scope of the records sought and the search and processing of records:

- Please search all locations and systems likely to have responsive records, regardless of format, medium, or physical characteristics.
- In conducting your search, please understand the terms "record," in its broadest sense, to include any written, typed, recorded, graphic, printed, or audio material of any kind.
- Our request for records includes any attachments to those records or other materials enclosed with those records when they were previously transmitted. To the extent that an email is responsive to our request, our request includes all prior messages sent or received in that email chain, as well as any attachments to the email.
- Please search all relevant records or systems containing records regarding agency business. Do not exclude records regarding agency business contained in files,

email accounts, or devices in the personal custody of your officials, such as personal email accounts or text messages. Records of official business conducted using unofficial systems or stored outside of official files are subject to the Federal Records Act and FOIA.²¹ It is not adequate to rely on policies and procedures that require officials to move such information to official systems within a certain period of time; American Oversight has a right to records contained in those files even if material has not yet been moved to official systems or if officials have, by intent or through negligence, failed to meet their obligations.²²

- Please use all tools available to your agency to conduct a complete and efficient search for potentially responsive records. Agencies are subject to government-wide requirements to manage agency information electronically,²³ and many agencies have adopted the National Archives and Records Administration (NARA) Capstone program, or similar policies. These systems provide options for searching emails and other electronic records in a manner that is reasonably likely to be more complete than just searching individual custodian files. For example, a custodian may have deleted a responsive email from his or her email program, but your agency’s archiving tools may capture that email under Capstone. At the same time, custodian searches are still necessary; agencies may not have direct access to files stored in .PST files, outside of network drives, in paper format, or in personal email accounts.
- In the event some portions of the requested records are properly exempt from disclosure, please disclose any reasonably segregable non-exempt portions of the requested records. If a request is denied in whole, please state specifically why it is not reasonable to segregate portions of the record for release.
- Please take appropriate steps to ensure that records responsive to this request are not deleted by the agency before the completion of processing for this request. If records potentially responsive to this request are likely to be located on systems where they are subject to potential deletion, including on a scheduled basis, please take steps to prevent that deletion, including, as appropriate, by instituting a litigation hold on those records.
